TITLE: Front light for reflective LCD, has transparent
functional layer with functional surface having
prism array protection, reflection prevention and
touch panel functions, laminated on light guide through
silica aerogel layer

ABSTRACTED-PUB-NO: JP 2003149643 A

BASIC-ABSTRACT:

NOVELTY - A transparent functional layer (4) with a functional
surface (4a)
having prism array protection function, reflection prevention
function and

touch panel function is laminated on a light guide (1) through a silica aerogel layer (2). The refractive index of the silica aerogel layer is 1.30 or less.

USE - For reflective liquid crystal display (LCD) in information technology equipment.

ADVANTAGE - Realizes effective light guide function without affecting the brightness of the LCD.

DESCRIPTION OF DRAWING(S) - The figure shows the cross-sectional views of the front light.

light guide (1)
